

Tourmaline Report

GIA Report 1236906729

April 07, 2026

Image is not to scale. Color is approximate.

Tourmaline

Tourmaline comes in every color of the rainbow and can even have multiple colors in the same stone, such as "watermelon" tourmaline, displaying pink on the inside and green on the outside. Tourmaline's name comes from the Sinhalese word *tōrmalli*, which translates to "stone with mixed colors." Significant sources of tourmaline include Brazil, Namibia, Nigeria, Mozambique, and the United States.

Characteristics

Mineral	Mohs Hardness	Toughness	Birthstone
Tourmaline	7-7.5	Good	October

Comments

This copper and manganese bearing tourmaline may be called "paraiba tourmaline" in the trade. The name "paraiba" comes from the Brazilian locality where this gem was first mined, however today it may come from several localities.
